22

GENL. & REV. SECRETARIA 1284 26 MAY 1936

FROM

K. V. ANANTARAMAN, ESQ., B.A.,
Muzrai Commissioner in Mysore.

To

M. Venkatesa Iyengar, Esq., M.A.,
Secretary to the Government of His Highness
the Maharaja of Mysore,
.....General.....*Department.*

BANGALORE SECRETARIAT Muz 25 MAY 1936

SIR,

Affairs of the Sri Lakshmi Narasimha Charities.

With reference to your letter No.1060/Muz.181-35-2 dated 4-2-1936 requesting me to look into the affairs of the Sri Lakshmi Narasimha Charities, I have the nonor to state that I visited the institution and examined the affairs of the Charities on 14-4-1936. The Chairman of the Committee was also present. The schools were not working on the above date as they had been closed for summer vacation.

I submit herewith for the information of Government, a copy of the report on the working of the institution together with its enclosures relating to the schools under its management furnished by the Chairman on 6-5-1936. Mr. M. Venkataswamy Naidu, one of the Committee Members, interviewed me in this connection and represented that his main grievance was that it was a strain on the funds of the Charities to spend a large amount on primary and secondary education without getting any grant either from the Municipality or Education Department. The representatic of the Committee for grants is quite reasonable and deserves favourable consideration.

The financial statement furnished by the Chairman shows that the institution is in a sound condition. The reports on the working of the High School and Middle School show that these institutions are being well managed and are popular.

Instructions have already been issued to the Chairman on 15-3-1936 in accordance with the directions contained in G.O.No.1319/ uz.300-35-4

dated 29-2-1936 modifying the rules for the administration Charities. The Chairman reports that a Committee has been appoi to frame rules for the administration of the Hostel and the Indu Sections, that a certified auditor is at present auditing the accounts day to day and that proposals for the appointment of an auditor for next year will be submitted for approval at the end of June 1936.

Mr. P. G. D'Souza is holding the office of Chairman from 1924. In the scheme approved by Government for the management of the Sri Lakshmi Narasimha Charities, Bangalore, in G.O.No.1315/Muz.336-32 dated 2-4-1934, the term of appointment of the Chairman of the Committee has been fixed at 3 years, and Mr. D'Souza has been continued as Chairman of the newly constituted Committee. The present reconstitution of the Committee was sanctioned in G.O.No.522/Muz.63-34-6 dated 5-10-1934. I would, therefore, suggest that a change in the Chairmanship may be considered during the next reconstitution of the Committee in October 1937

I have the honor to be,

Sir,

Your most obedient servant,

M. N. Anandaham.

Assistant Commissioner
For Muzrai Commissioner.
(Absent from headquarters)

Report No.608/ABC dated 6-5-36 from the Chairman, Committee of Manage nt, S.L.N. Charities, Bangalore City, to the Muzrai Commissioner in Myso

---

(1) With reference to your request for certain information during your ~~last~~ last visit to the S.L.N. Charities, I am enclosing herewith a comparative statement of receipts and expenditure, at the time the institution was managed by Janopakari Doddanna Setty, i.e. in 1920, and its state when, owing to dissensions among the trustees, I took charge of it in 1924 and its present condition. The receipts in Janopakari Doddanna Setty's time used to be about R 13,960; the receipts in 1924 had risen to about R. 18000 due mainly to increase in the rents of shops and the theatre owing to the abnormal conditions that prevailed immediately after the war. The central enclosure used to be given for wrestling matches for which a rent of R 1,100 used to be realised, but which has been stopped in the interests of the institution. The receipts have now risen to R 30,000 of which R 7,277 are due to fees in the High School. The rest of the increase is due to increase in rents by construction and improvements of buildings and improvements in various other sources of income. The expenditure in Doddanna Setty's time was R 12,944. Usually, receipts and expenditure used to balance with each other. In 1924, the expenditure had arisen to R R. 16,204 due to increase in salaries, boarding expenses etc. The expenditure in 1934-35 was R 34,627. This includes an item of R. 7,000 for construction of new buildings. Excluding this, the present expenditure is R 27,000; the income from the institution is R 30,000. It will thus be seen that in spite of great expansion in activities, the expenditure has been adjusted to receipts, leaving a balance of about R 3,000 which is ~~kexx~~ being used for expenditure on buildings and any unforseen charges.

(2) There has been a large expansion of activities in the institution for the last five years, the most important of which is the opening of the High School, the improvement of the Industrial Section by a thorough reorganisation of the carpentry, tailoring and rattan and weaving sections, and the addition of a smithy section. The expenditure on materials only of the Industrial Section which used to be R 200 in 1934 has now been raised to R. 464. The cost of the High School is also R 6,276 per annum. Separate reports from the Headmasters of the High and Middle Schools of the institution are attached herewith. In point of qualifications and efficiency of staff, attendance and results in examinations and various extra curricular activities, the institution has now a reputation second

B. 15

A brief report of the working of the S.I.P.High School for the years 1931-32, 1932-33, 1933-34 and 1934-35

The High School was started in the year 1931 with only one section in the Fourth Form experimentally. The number of students that attended it the first year was only 17. On account of the representation made by the Management as to the need for the High School, all the three forms were opened the next year. Recognition was given under the Rules twice, for two years at a time, and permanent recognition has now been accorded as the Institution has complied with all the conditions necessary as regards staff, equipment, buildings, resources etc. The High School is under a Committee of Management appointed for the Charities as a whole, and among these Mr. B. Puttaya exercises special supervision over the High School section.

Accommodation. - All the High School classes are held in the main building of the School. In order to provide the necessary accommodation for the High School classes, some of the Industrial and Middle sections classes are shifted from the main building and five new rooms have been erected. The Institution has for special occasions the use of the spacious hostel hall, but having regard to the magnitude of the Institution, a separate hall will have to be provided in the future to provide full scope to the many sided new activities the Institution has undertaken.

Play-ground. - The compound of the school is used as a play-ground; but it is insufficient as the total strength of the High and Middle schools is more than 750. The Municipality and the Deputy Director of Public Instruction have been requested to give a suitable playground in the Jampeng Tank-bed to enable all the terms of the High school to play regularly.

Equipment,- (a) New reversible benches, tables and desks are purchased for the school to accommodate all the students comfortably. All the articles of furniture are fresh and durable. (b) The Laboratory is equipped at a cost of about Rs.3000 with all the materials required for the science classes on a scale somewhat larger than is usual. Six practical tables are specially made for the school. Our laboratory compares very favourably with those of other High schools in the state. Maps and Charts have also been provided for the study of Geography and History. (c) The Library contains many novels of literary interest and its enlargement is receiving attention. There is a separate reading room which is well equipped.

Staff.- As shown in detail in the Appendix the staff consists of persons highly distinguished by their academic and other qualifications - a fact that has contributed greatly to the popularity and the results of the school. All the members of the staff are co-operating whole-heartedly to popularise the Institution.

Scholarships and [illegible] - [illegible] Institution is unaided, the Management have been [illegible] enough to grant 20% freeships. Backward scholars [illegible] by the Department.

Extra curricular activities - [illegible] none in the extra curricular activities. [illegible] school have participated in [illegible] annexed a number of trophies. [illegible] conducted regularly

The scout troop of the High School [illegible] popular under the guidance of Mr. [illegible] Master of the School. The Troop is [illegible] It is hoped that there is a bright future for the [illegible]

16

The members of the literary & dramatic Association have put on boards several occasions. It is gratifying that the members displayed a high standard of histrionic talents. In this brief report, only the more important of the activities are mentioned for want of space.

Results. - A comparative statement of the results of our school boys at the S.S.L.C. examinations is given in Appendix Though we had to admit to the sixth form students who had failed more than once during the previous years, the results have been very satisfactory. Special care is being taken to solve the individual difficulties of the students not only during class-hours but during holidays. There is a steady improvement in the results of the school, & this year 14 students have appeared for the S.S.L.C. examination, out of them being the students of our school for the last three years. It is hoped that the results of the school this year also will be very encouraging.

Celebration. - One of the distinctive features of the Institution is the celebration of Association Day, Prize distribution etc. which are being celebrated every year with great eclat in the month of August.

Visits - The Institution is inspected in detail by the Deputy Director of Public Instruction who records all the results noticed.-

The Institution has not received any grant in chief reason given being non-submission. Though it has to contend difficulties in the rules for grant-in-aid of this type setting apart, for, her salaries are adjusted to the income derived from fees, and the Charities in a contribution of the expenditure as required by rules usually, it is not possible to show any efficiency. The Institution has not suffered for having continued for five years without a grant, all extra expenditure such as equipment all having been provided by the Institution. As the Institution is not able to make any additional contribution to meet the expenditure, there is no scope to reduce the present unsatisfactory inadequate increase in salary unless for the purpose of collection.

Conclusion.- The cost of the establishment of the S.S.L.C. High school is about Rs.720 p.m. or at the rate of Rs.8640 per annum for a strength of 109 in the Matriculation High school Rs.388 per month. The salaries for the complete staff for this is in no way effective but this is in no way effective but we do not have to have no stone unturned to maintain the Institution of the highest level. It is however painful to note that the Institution receives no grant and the income of the Charities being practically ~~or dually~~ devoted in full to the various objects aimed by the Donor.

Manager

A Short Report on the working of the Middle School 18
Department for the Years 1931-32,32-33,33-34,34-35.

The Institution is a remarkable in that it imparts education continuously for ~~xx~~ 11 years and watches the progress of boys in the early three stages of their educational career. Being situated in the heart of the city, it caters to the needs of people mostly of artizan classes. It may be noted here that the Institution, besides literary education, inculcates a vocational bias' to each individual that enters the portals of the Middle School, since it is deemed that every Middle School student should be trained in one of the Six Industrial avocations, provided for, by the Institution.

A. Strength and Attendance.

1. Primary Education: There are five Sections in the Primary department. The classes have gained, in Strength and popularity. New experiments have been conducted and much emphasis was been laid upon ' Play way of Education'. Earnest work is carried on in the light of 'New Education ' programme, with the result that the boys are given an impetus to attend the School with out any pressure placed on them to do so. The average attendance has been very satisfactory. In case absentees, the hearty co-operation of the parents will be resorted to. The health and cleanliness of the children are closely scrutinised and the classes offer a tidy and smart appearance.

11. Middle School Education: Its popularity and proximity to the city quarters, have been attracting more and more students, year after year, as many may be observed in appendix I. The Institution has expanded to a great extent and ina course of four years, it has almost doubled itself. Since 1933 owing to the heavy rush of the students and the pressure of the public, an extra section in I year class was opened and in subsequent years additional Sections were opened in Every year class Now each class has two Sections with the exception of XIII year class. At present there are seven Sections with a strength of 361 boys, as on 31st March 1936.

111. Industrial Education: The Industrial Section of the Institution imparts instruction in Six branches of Industry viz.carpentry,Toywork weaving, tailoring, Rattan and smithy and it was felt that since toy works farmed a part of advanced carpentry, that section ceased to exist as a ~~xxx~~ separate entity and smithy was newly introduced from the year 1934-35. This year an agridultural Section has been brought into being and this has drawn a considerable number of students coming from the rural areas. As already stated, the boys are compelled to select any one of the Six subjec The Timetable is specially adjusted such that six periods of literary and the same number of periods of Industrial Work are carried on each day. A drawing instructor is in charge of General and Industrial drawing, and his services are placed exclusively for the benifit of the Middle School students. Sanction was accorded by the department of Public Instruction in the year 1933-34, to present candidates for the S.S.Examinations in all the Industrial ~~s~~ubjects imparted by the Institution as optional subjects Last year, for the first time, three candidates offered weaving and two ~~xx~~ are carpentry for the S.S.and this year tailoring also has been selected for the public Examination. The question of getting recognition for the agricultural classes has been under correspondence.

B. STAFF: It is pleasing to note, as per appendix II, that the Middle ~~xx~~ School has on its staff many efficient and technically trained graduates. The number on the staff has increased in proportion to the number of Sections newly opened. The teachers are very enthusiastic and painstaking

Some of the members have engaged themselves in rural reconstruction work and it is worthy to note that their work was very much appreciated in the recent rural and industrial exhibition. The brilliant and steady results that the Institution has been getting and in high standard of efficiency of the staff may be ascribed to the guiding hand of our worthy President and the spirit of service on the part of the staff.

C. Results. It may be seen in Appendix III that from the year 1931, there has been a gradual increase in the percentage of passes. This year 60 boys have sat for the Middle school examination and it is hoped that at least one section of the Form will be sent next year from the Institution alone.

D. Physical education and scouting. Physical training is compulsory for and is attended to by an Instructor specially appointed for the purpose. The usual games such as cricket, football, hockey have been popular. For want of playground space, great deficiency in outdoor games has been addressed to in this direction by providing play-grounds for the Institution.

There is a Scout Troop under the leadership of Mr. V. Gundurao and Jamadar. In this connection it may be stated that the Troop has earned for service at public functions and the Scout Troop was called upon to serve on various occasions in connection with important civic functions in the city. In games the school has won distinction in inter-school competitions and has carried off many medals and prizes.

E. Extra curricular activities. The school possesses dramatic troupe and a debating society. The members of the clubs have undertaken very historical plays and they have taken part in inter school elocution competitions in which they acquitted themselves very well securing the second place for the school last year.

Excursions have been the recurring feature of the Institution. One literary work is made compulsory. Paper reading is also encouraged. An effort has been done to start school co-operative society. Class hours are arranged by mutual [illegible] the convenience of the [illegible] for the [illegible] and [illegible] the [illegible] office-bearers of the [illegible] Association and the members of the staff [illegible] contribute not a little to the success of the functions. The Secretary of Association is served in the High School Association and much interest is carried on by the Association in the form of arranging professional talks and by way of contributing articles to various [illegible] magazines.

F. Conclusion. [illegible] co-operation of the various departments of the Institution. [illegible] special advantage of the enrichment to the higher grades. [illegible] tone of the school has been very satisfactory.

Letter No. 1060/Muz. 181-35-2 dated the 4th February 1936 to the Muzrai Commissioner in Mysore calling for a report on the affairs connected with the Sri Lakshminarasimha Charities, Bangalore, especially the School Department and enquiring whether it was desirable to change the present Chairman of the Committee who was holding the office too long.

2. Letter No. Nil 65/35-36 dated the 22nd May 1936 from the Muzrai Commissioner in Mysore submitting the report called for and stating that the institution is financially in a sound condition, that the High School and the Middle School attached to the Charities are being well-managed, that a Committee has been appointed to frame rules for the administration of the Hostel and the Industrial Sections, that a certified Auditor is at present auditing the accounts, and that a change in the Chairmanship of the Committee of Management of the Charities may be considered during the next reconstitution of the Committee in October 1937.

Order No. 38 / Muz 181-35-4
Dated, Bangalore, . 6th July 1938
